CI	P9021	BLACK	GS12	3

WASHING AND STAND-BY (SOLVENT) SOLUTIONS				
SERIES	CODE	/	/	CHEMICAL COMPATIBILITY
CI	F0011	CLEANER		COMPATIBLE

Here below is the key relating to the indicated type approval levels:

Level	Description
1	The ink has been laboratory tested to certify its compatibility with all construction materials of INTESA printers.
2	After passing the level 1 tests, ink has been used on a sample printer and has proved to be compliant with the circuit stability and print quality standards.
3	Ink has been used for production for a period of at least 6 months, on INTESA digital printers, and has offered good results in terms of continuity during production.

Remarks: should serious problems arise during industrial use, the above mentioned type approval may be cancelled by IN.TE.SA.
